

Leadership for a Clean Revolution 11:00 AM – 12:30 PM, 18 June 2012

Overview

Speakers will review the role of leadership on the transition to a low carbon economy, including examples of successful leadership today, analyzing the drivers of this leadership, and reviewing the characteristics of leading organizations. The event will discuss the mission and objectives of the Clean Revolution Campaign, a major initiative by The Climate Group, UN and World Bank and will release a report into the state of Leadership on the Clean Revolution.

Programme

Moderator:

- Andrew Steer, Special Envoy for Climate Change, the World Bank

Speakers:

- Rt. Hon. Tony Blair (video message)
- Mark Kenber, Chief Executive Officer, The Climate Group
- Jim Walker, Director International Programmes and Strategy, The Climate Group
- H.S.H. Prince Albert II of Monaco
- Premier Jean Charest, Province of Quebec
- Harry Hendriks, Global Head of Government Affairs, Philips

Agenda

11:00-11:05am

Welcome

- Mark Kenber, Chief Executive Officer, The Climate Group

11:05-11:15am

The Clean Revolution vision

- Rt. Hon. Tony Blair (*video message*)

11:15-11:25am

Overview and introductions (*moderator*)

- Andrew Steer, Special Envoy for Climate Change, the World Bank

11:25-11:40am

The Clean Revolution campaign

The world needs a swift and massive scaling-up of clean energy technologies and infrastructure; a change in design and behavior to improve efficiency and use of our natural resources; a process that will create jobs, boost economic growth, and secure a better, more prosperous future for all: a Clean Revolution.

- Mark Kenber, CEO, The Climate Group (5 mins)
- Jim Walker, Director International Programmes and Strategy, The Climate Group (10 mins)

11:40-11:47am

Clean Revolution in action: Ambassador

We need to provide for more people that are better off than ever before, in a way that makes financial sense and is at the same time, sustainable. Recent breakthroughs in technologies bring both significant implications and opportunities, as does the bold leadership of national and regional governments around the world who are leading the way towards the Clean Revolution.

- H.S.H. Prince Albert II of Monaco

11:47-11:54am

Clean Revolution in action: States and Regions

States and regions are delivering bold leadership for the Clean Revolution, and are achieving real emissions reductions that are delivering direct benefits to communities and businesses. Members of the Climate Group's Alliance of States and Federated Regions share the lessons and opportunities of the Clean Revolution.

- Premier Jean Charest, Province of Quebec

11:54-12:02pm

Clean Revolution in action: Lead partner

Philips has been pioneering the development and deployment of the next generation of LED technology, which is rapidly emerging as a game changer and offers significant opportunities for carbon, energy and financial savings as well as other direct benefits.

- Harry Hendriks, Global Head of Government Affairs, Philips

12:02-12:07pm

Clean Revolution in action: Strategic partner

Suzlon has held the number-one spot in the wind industry in India for 11 consecutive years with a 50% share of the market for the past ten years. In terms of installed capacity, it is the third largest in Asia and fifth worldwide. The Suzlon Group has a combined global market share of 8.4%. Its presence can be found across 32 countries with over 17 GW installed.

- A senior representative, Suzlon

12:07-12:14pm

Clean Revolution in action: Campaign partner

The Clean Revolution is a chance to create millions of quality jobs, develop new markets and industries, tackle poverty in underdeveloped regions, enhance energy security for future generations, and transform the lives of people everywhere for the better.

- A senior representative, UN Environment Programme (UNEP)

12:14-12:21pm

Clean Revolution in action: Supporters

The Clean Revolution is a journey towards a world transformed by a huge scaling up of clean tech, market innovation and visionary governance. The Dutch Postcode Lottery is supporting The Climate Group's work to **convene, energize and inspire the world's decision makers, drive innovation in clean technology, and showcase** successful examples of low carbon transformation at scale.

- Marieke van Schaik, Managing Director, Dutch Postcode Lottery

12:21-12:28pm

Keynote/rallying call to join the Clean Revolution:

There's a moment when a new idea or technology moves from the margins and becomes mainstream: a tipping point. Once this happens, change is unstoppable. Over the next three years The Clean Revolution campaign aims to reach that tipping point by inspiring the top 20% of the most influential people in the world: policymakers, business leaders, public figures to take transformational action on the low carbon economy. We will show that the Clean Revolution is not only possible, but also the key to raising living standards, creating lasting employment and improving productivity.

- Key note speeches from leading figures from the world of Government and Business

12:28 – 12:30pm

Closing Remarks

- Mark Kenber, CEO, The Climate Group

THE °CLIMATE GROUP
