

Double Share of Renewable Energy in the Global Energy Mix to Achieve 'Sustainable Energy for All' 11:00am - 12:30am, 16 June 2012

Overview

The Sustainable Energy for All initiative has stated three objectives to be met before 2030;

- Ensuring universal access to modern energy services
- Doubling the share of renewable energy in the global energy mix
- Doubling the rate of improvement in energy efficiency

In this session the participants will discuss private sector actions and partnership and public policy measures that would help double the share of renewable energy in the global energy mix by 2030. Further background can be found in www.sustainableenergyforall.org.

Programme

Moderator:

- Mr. Steve Sawyer, Secretary General, Global Wind Energy Council

Speakers:

- Ms. Christine Lins, Executive Secretary, REN21
- Mr. José Antonio Correa Coimbra, Executive Secretary of the Ministry of Mines and Energy of Brazil
- Ms. Wang Yuan, Director General of Education & Training Department, China Development Bank
- Mr. Rohan Parik, Head of Green Initiatives, Infosys Limited
- Ms. Samantha Smith, Leader of WWF Global Climate and Energy Initiative, WWF
- Mr. Giles Dickson, Vice President, Environmental Policies and Global Advocacy, Alstom
- Mr. Juan Ramón Silva, Executive Director of Sustainability, ACCIONA

Mr Steve Sawyer will chair this panel of leaders from the renewable energy sector. Following a keynote presentation by Ms. Christine Lins, the panellists will share some of their experiences and reflections in relation to what it will take to achieve the SE4ALL objective of doubling the share of renewable energy in the global energy mix, and debate issues such as regulatory frameworks, innovation and public-private partnerships.

Agenda

- 11:00am – 11:30am** **Setting the scene: Keynote presentation by Christine Lins**
Doubling the rate of Renewable Energy - what are the implications, what does it take?"
- 11:30am – 12:30pm** **Panel debate**
