

Water Conservation Initiatives Across Sectors 11:00 AM – 12:30 PM, 16 June 2012

OVERVIEW

The session will describe the contribution from companies in addressing water scarcity issues in Indonesia and other countries. This session will also touch upon the interest of other stakeholders including NGOs, academia and government. The session will:

- 1) Present current global conditions and challenges posed by water crises and water scarcity issues happening across the globe and stress the importance of global action for water conservation.
- 2) Introduce the Indonesia Water Mandate Working Group and the collaborative actions it has implemented during 2011-2012 (prior to Rio+20) to address water issues.
- 3) Present best practices based on individual water conservation initiatives by Indonesian corporations, global corporations operating in Indonesia, NGOs and other organizations.
