

**Sustainable Energy for All:
Mobilizing Action and Partnerships around 'High Impact Opportunities'
09:00am – 12:00pm, 17 June 2012**

Overview

The Sustainable Energy for All initiative has stated three objectives to be met before 2030;

- Ensuring universal access to modern energy services
- Doubling the share of renewable energy in the global energy mix
- Doubling the rate of improvement in energy efficiency

SE4ALL is now mobilizing actions around a number of High Impact Opportunities. Further background can be found in SE4ALL Action Agenda. <http://www.sustainableenergyforall.org/images/content/ActionAgenda.pdf>

In this session the participants will discuss actions and commitments related to SE4ALL several of these High Impact Opportunities. Participants will learn how some companies have shown leadership in developing some of these opportunities. Following these introductions the participants will engage in round table discussions around several High Impact Opportunities.

Programme

Moderator:

- Mr. Michael Liebreich, CEO Bloomberg New Energy Finance

Speakers:

- Mr. Chad Holliday, Co-Chair of Sustainable Energy for All
- Ambassador Vince Henderson, Permanent Representative and Ambassador of the Commonwealth of Dominica to the United Nations
- Mr. Thomas Nagy, Executive Vice President and Chief of Staff, Novozymes
- Ms. Hege Norheim, Senior Vice President Climate, Statoil
- Mr. Philippe Schulz, Expert Leader Environment, Energy & Raw Materials, Renault
- Ms. Leslie Cordes, Senior Director, Strategic Partnerships, UN Foundation
- Ms. Alexandra Liftman, Global Environmental Executive, Bank of America

During the first half of this session, Mr. Michael Liebreich will chair this panel of leaders that all have an involvement in developing High Impact Opportunities. Following a keynote presentation by Mr. Chad Holliday, the panellists will share some of their experiences and reflections in relation to their role in developing actions within these action areas.

In the second half of the session, the audience will be invited to contribute and engage in discussions on how their organisations could get involved in SE4ALL. The tables will be organised in High Impact Areas and each

table will have a moderator responsible for collecting ideas and actions from the table. A summary of this will be made available on www.sustainableenergyforall.com as soon as practically possible after the discussion.

All tables will be asked to discuss what can your company or organization does in relation to the High Impact Opportunity Area being addressed at your table

- Participate in ongoing initiatives
- Start new initiatives

Roundtables will focus on the following High Impact Opportunities (there may be others added on as the event nears):

- Modern cooking appliances and fuels
- Mini / micro grids
- Off-grid lighting and charging
- Advanced lighting and appliance efficiency
- Phase out of gas glaring from oil production
- Corporate energy efficiency
- Energy efficiency in buildings
- Demand pull for renewable energy
- Financing
- Capacity Building
- Energy-smart foods
- Sustainable Energy for Island Economies
- Renewable Grid-Connected Projects
- Electric vehicles
- Vehicle fuel efficiency standards
- Sustainable cities
- Second-generation bio-fuels

Some of the ideas and suggestions will be brought up to the plenary session at the end.

Agenda

- 09:00am – 09:15am Setting the scene
- 09:15am – 10:15am Panel debate
- 10:30am – 11:45am Round Table discussions
- 11:45am – 12:00pm Summary and wrap-up
